SUMMARY

Self-taught Full Stack Developer (MERN) with hands-on experience building and deploying production-ready web applications, including authentication systems, REST APIs, and database-driven platforms. Strong foundation in JavaScript, React.js, Node.js, Express.js, and MongoDB, complemented by working knowledge of Data Structures and Algorithms in Java. Delivered freelance projects for real clients, demonstrating adaptability, fast learning, and problem-solving ability. Seeking a full-time, internship, or remote opportunity.

TECHNICAL SKILLS

Languages: JavaScript, Java

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, React.js, Next.js, Redux Toolkit, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, OAuth, MVC Architecture, Socket.IO

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render

Data Structures & Algorithms: Arrays, Strings, Sorting, Searching, Basic Backtracking (Java)

PROJECTS

ExploreBnB — Airbnb-Inspired Full Stack Rental Platform | *Node.js, Express.js, MongoDB, EJS*

- Independently designed, built, and deployed a full-stack rental listing platform end-to-end, covering listing management, image uploads, map integration, and a review system.
- Implemented secure authentication and authorization with Passport.js, preventing unauthorized access to listing edit/delete actions.
- Structured the backend using MVC architecture, keeping the codebase modular and easy to extend with new features.

Stock Management Application — Zerodha-Inspired Clone | *MongoDB, Express.js, React.js, Node.js (MERN)*

- Built a full-stack stock trading simulation with buy/sell functionality, JWT-based authentication, and protected REST APIs.
- Implemented an email OTP verification system to strengthen account security.
- Built a responsive React.js frontend backed by secure REST APIs.

FB Panel (Freelance) — Automation & Management Tool | *Node.js, Express.js, MongoDB, EJS*

- Designed a token verification and key-based approval authentication system for secure access from admin dashboard.
- Built auto bulk messaging management, auto-comment functionality, and live status monitoring features.
- Implemented country-based authorization to manage user permissions.

Mehndi Artist Portfolio Website (Freelance) | *React.js*

- Developed a responsive frontend portfolio website for a freelance client, featuring a work gallery and an appointment booking interface.

Additional Minor Projects: Todo List Application, Weather Application and Many other small activities (React.js/JavaScript).

FREELANCE EXPERIENCE

Freelance Full Stack Developer

- Delivered client-focused web development projects, including FB Panel (full-stack automation application) and a Mehndi Artist Portfolio Website (React frontend).
- Collaborated directly with clients to gather requirements, build responsive interfaces, and deploy production-ready solutions.
